

ABOUT	<p>Centro Sans Compressed is part of a larger type system that includes a condensed and an extra condensed version which all together complement the award-winning Centro Sans Pro type family. It was originally developed for the redesign of the Financial Times Deutschland newspaper in order to offer a strong readable custom font family which managed to retain the serious reputation of the newspaper. Specific versions were developed for headlines, body text, captions and charts. Centro Sans is a type system with distinct personality which stands out at large sizes. It does not attract any unnecessary attention at small sizes but it still gives you the essence of a very clean, expressive, legible and modern set of typefaces which makes it an ideal choice for newspapers, magazines and corporate applications. Centro Sans Compressed comes with 16 styles including true-italics, whereas the Centro Sans type system offers a comprehensive range of 66 font variations.</p> <p>Centro is a registered trademark of Parachute®</p>

LIGATURES

Replaces a sequence of glyphs with a single glyph, creating a professional-looking text with no peculiar collisions among letters. This feature covers the standard f-ligatures, as well as few other ones used in normal conditions.

ff fi fl ffi ffi ▶ ff fi fl ffi ffi

OLDSTYLE FIGURES

Changes selected figures from the default lining to oldstyle i.e. numbers of varying height. These are appropriate for use with lowercase text. They come in two different styles: tabular and proportional. Tabular figures have equal widths (useful for tables, so that numbers line up from one line to the next) whereas proportional have varying widths and are basically used within a sentence.

2|7|6|0 ▶ 2|7|6|0
2760 ▶ 2760

LINING FIGURES

This feature changes selected figures from oldstyle to the default lining form. Lining figures are numbers which fit better with all-capital text and they are of the same height as capitals or a bit smaller. They also come in two different styles: tabular and proportional.

2760 ▶ 2760
2|7|6|0 ▶ 2|7|6|0

PROPORTIONAL FIGURES

Replaces selected figure glyphs which are set on tabular widths (lining or oldstyle), with corresponding glyphs set on proportional widths (lining or oldstyle).

2|7|6|0 ▶ 2760
2|7|6|0 ▶ 2760
