

ABOUT	<p>The Adamant family is a serif typeface that comes in six weights, from Light to ExtraBold, each with italic and small caps versions. Every font includes ligatures, lining and oldstyle figures in proportional and tabular widths, fractions, alternate characters, and other typographic features. The weights are finely balanced so that they can be easily combined, depending on type of paper and print conditions. Its proportions, sturdy serifs, high x-height and wide apertures make it very readable at small sizes. It is suitable for setting books, magazines and newspapers, but is also appropriate for use in large sizes like in poster design.</p> <p>Adamant is a trademark of Vedran Erakovic</p>

Regardless of whether the nations continue to remain isolated as far as the territorial aspect is concerned or they become more distributed, the electronic contiguity will reinforce the cultural link between them. During the few decades that television became widespread, some cultural codes were transmitted, even to nations where electronic means of communication were explicitly forbidden. The breakup of the Soviet Union may have been affected by this factor more than we would think possible. Television presented several products and services worldwide, making people consider them common, if not to respect them consistently. Regardless of whether the nations continue to remain isolated as far as the territorial aspect is concerned or they become more distributed, the electronic contiguity will reinforce the cultural link between them. LIGATURES

Replaces a sequence of glyphs with a single glyph, creating a professional-looking text with no peculiar collisions among letters. This feature covers the standard f-ligatures, as well as few other ones used in normal conditions.

ff fi fl ffi ffl ft fj ffj ▶ ff fi fl ffi ffl ft fj ffj

SMALL CAPS

This feature formats lowercase text as small caps. These are not computer generated scaled-down versions of capitals, but rather glyphs which have been designed to match the weight and proportions of the rest of the family characters. They are often used in combination with oldstyle figures, for acronyms and abbreviations and stylistically at the beginning of a paragraph (this feature includes Latin and Greek small caps).

typography ▶ ТУРОГРАФУ
типографія ▶ ТИПОГРАФІЯ

OLDSTYLE FIGURES

Changes selected figures from the default lining to oldstyle i.e. numbers of varying height. These are appropriate for use with lowercase text. They come in two different styles: tabular and proportional. Tabular figures have equal widths (useful for tables, so that numbers line up from one line to the next) whereas proportional have varying widths and are basically used within a sentence.

2|7|6|0 ▶ 2|7|6|0
2760 ▶ 2760

LINING FIGURES

This feature changes selected figures from oldstyle to the default lining form. Lining figures are numbers which fit better with all-capital text and they are of the same height as capitals or a bit smaller. They also come in two different styles: tabular and proportional.

2760 ▶ 2760
2|7|6|0 ▶ 2|7|6|0

PROPORTIONAL FIGURES

Replaces selected figure glyphs which are set on tabular widths (lining or oldstyle), with corresponding glyphs set on proportional widths (lining or oldstyle).

2|7|6|0 ▶ 2760
2|7|6|0 ▶ 2760

TABULAR FIGURES

Replaces selected figure glyphs which are set on proportional widths (lining or oldstyle), with corresponding glyphs set on tabular widths (lining or oldstyle).

2760 ▶ 2|7|6|0
2760 ▶ 2|7|6|0

SUPERIORS

Replaces lining and oldstyle figures with superior figures and lowercase letters with superior letters. These superior glyphs are not computer generated scaled-down versions but are rather redesigned to match the weight of the regular glyphs. Superior figures are used mainly for footnotes and superior letters for abbreviated titles (this feature includes Latin as well as Greek superior letters)

footnote3 ▶ footnote³
h2=x2+y2 ▶ h²=x²+y²
Dr ▶ D^r Mme ▶ M^{me}

SCIENTIFIC INFERIORS

Replaces lining and oldstyle figures with inferior figures. They have been designed to match the weight of the regular glyphs and sit lower than the standard baseline. Used primarily for mathematical and chemical notations.

CO2 ▶ CO₂
H2O ▶ H₂O

NUMERATORS

Substitutes selected numbers (and basic punctuation) which precede a slash with numerator glyphs and replaces the typographic slash with the fraction slash.

253/ ▶ 253/
856/ ▶ 856/

DENOMINATORS

Substitutes selected numbers (and basic punctuation) which follow a slash with denominator glyphs and replaces the typographic slash with the fraction slash.

/253 ▶ /253
/856 ▶ /856

FRACTIONS

Figures separated by slash, are replaced with diagonal fractions.

5/8 ▶ ⅝
3/5 ▶ ⅔

ORDINALS

Contextually replaces default alphabetic glyphs which follow numbers with superscripted glyphs and the sequence 'No' with the numero character (№). This feature includes Latin as well as Greek lowercase and capital ordinals.

1st ▶ 1st 2nd ▶ 2nd 28th ▶ 28th
No ▶ №

CASE-SENSITIVE FORMS

Shifts punctuation marks up to work better with capital letters and lining figures since by default they sit lower to properly mix with lowercase characters.

[(HELLO)] ▶ [(HELLO)]
«ПРИВЕТ» ▶ «ПРИВЕТ»

STYLISTIC SETS

Adamant includes some alternative characters which can be activated by turning on 'stylistic sets'. They may be useful for setting texts at very small sizes, or for typing Serbian Cyrillic characters instead of Russian ones.

a ▶ a c ▶ c e ▶ e д ▶ д
brace ▶ brace правда ▶ правда

LOCALIZED FORMS

Replaces certain standard character forms with preferred local variants when the text is tagged Moldavian, Romanian or Serbian.

б ▶ б ș ▶ ș ș ▶ ș д ▶ д

CAPITAL SPACING

Globally adjusts inter-glyph spacing for all capitals. This feature can be applied (opens up the space in-between them) when text is set all-capital in order to make it more legible.

PARACHUTE ▶ PARACHUTE

SLASHED ZERO

Replaces the regular form of zero with an alternate form which includes a slash through the counter. This is particularly useful when capitals are mixed with numbers in which case capital O may be difficult to distinguish from zero o.

0 ▶ 0
20 OBJECTS ▶ 20 OBJECTS

THE FOUNDRY

Parachute® is an independent award-winning type foundry. It landed in 1999, but it wasn't till 2001 that it started operating as a full-scale company. Since then, 13 designers have joined in to form a select group of open minded, free spirited individuals, all coming from diverse design fields.

Over the years, Parachute has built a strong network of valuable relationships with customers in Europe, United States, Canada, Asia and Australia. The year 2003 marked the beginning of a new era for Parachute with the release of an award-winning catalog. Since then an emphasis was placed on multilingual support and opentype technology.

Parachute has won several major international typeface design awards, including the red dot: grand prix 2012 for original typeface. All Parachute fonts have been designed to offer multilingual support for major scripts such as Latin, Greek and Cyrillic. Latest entries support Arabic as well. For an updated profile please visit our website.

THE DESIGNER

Vedran Erakovic was born on September 30, 1980 in Split, Croatia. He lives in Belgrade, Serbia. Vedran Graduated in 2004 from the Faculty of Applied Arts, University of Arts, Belgrade, the Department of Applied Graphics and obtained his Master's degree in 2009. He works as an Art editor in the Serbian daily newspaper 'Politika', and also collaborates with FontShop from Berlin. He is a member of Association of Applied Artists and Designers of Serbia (ULUPUDS). He is involved in typeface design, graphic design, calligraphy, design of newspapers and magazines. He has participated in a lot of exhibitions and projects in his country and abroad and has won several awards for graphic design and typeface design.

BESPOKE FONTS FOR
LIVING BRANDS

In an emerging global market, all major companies invest heavily on corporate branding and design as a means of differentiating themselves from competitors. A **custom corporate typeface** is equally important as it greatly influences the unconscious perception of the anticipated target audience. It reflects the essence of the brand, creates a consistent visual identity which strengthens the product and projects an attractive and easily perceived personality. At Parachute we offer original custom design, multilingual support and advanced typographic expertise. For over a decade, we have provided custom corporate font services to some of the most innovative designers and companies around the world. Our clientele includes advertising and branding agencies, broadcasting corporations, publishing houses, financial institutions and multinational corporations such as:
